

Will you be the guy we are looking for in QYCS?

Qycs Global Shipping Inc. is a global shipping company that provides international shipping and shopping services while developing other e-commerce services to benefit people around the world.

Chinese people from abroad are blessed! Whether you want to ship something, or buy something, we do everything we can to help you.

Qycs mainly establishes user groups and collection points on the official website through users. Through the development of users and collection points, we provide better international co-shipping, direct shipping, item storage, merchandising and Haitao(global shop) services. We strive to expand our Qycs shipping and shopping web platform globally.

Online, **Qycs technical team** independently developed the myqycs.com platform, in addition to **user-friendly web features**, we also have a very **secure database** developed by ourselves. Offline, our **shipping and shopping team's** exploration and experience in global shipping and shopping has made the Qycs technical team more aware of the needs of users. They have to do a lot, including **setting up domestic warehouses, cooperating with transporters, striving for the lowest price, expanding the collection points, publicity marketing, etc.** In addition, our customer service is **professional and patient**, Qycs's writer is **interesting and creative**, our designers are **soul masters**. Our team is not only **united and helping** each other, but also **innovating and motivating**.

We are a startup company. I wonder if we are like-minded?

Qycs technical team
